

Research Grant

Objective

The ME TO YOU Foundation aims to support young and well-established scientists within the field of translational and/or clinical research on the prevention, diagnosis, treatment, prognosis and follow-up of leukemia and other blood related disorders. ME TO YOU is constantly raising money with the intention to fund Belgian scientists who have an excellent research proposal but are not yet eligible for, or have not yet been awarded with a research grant from the Belgian government or pharmaceutical industry.

Features

- Translational and/or clinical research on the prevention, diagnosis, treatment, prognosis and follow-up of leukemia and other blood related disorders.
- Research expenses: minimum €2500 - maximum €35.000

Profile and conditions

- You are a (post)doctoral researcher affiliated to or under the responsibility of a Belgian university or officially registered higher education institution that can award a PhD degree.
- Your research project will be carried out under the direction of a supervisor, possibly in collaboration with one or more co-supervisors.

Selection procedure

- For a first selection, mail your introductory application form accompanied by a recommendation letter of the head of your research department to info@stichtingmetoyou.be
- Your introductory application will be submitted to the ME TO YOU Advisory Board.
- The ME TO YOU Advisory Board will report to the Board of Trustees who will decide.
- The Board of Trustees will contact you in case of a further final screening.

Introductory Application Form
